Austin, Texas 78734-6219 TX LIC# C20681

Worldwide each year, employers, organizations and governmental agencies request millions of consumer reports, keeping homes and businesses safe.

Founded in the U.S. as a non-profit trade association in 2003, the National Association of Professional Background Screeners (NAPBS®) was established to represent the interest of companies offering employment and tenant background screening services. Just as importantly, however, the initial members wanted to establish and promote a high level of ethics and performance standards for the screening industry. The Association currently represents over 760 member companies worldwide engaged in employment and tenant background screening. Member companies range from Fortune 100 companies to small local businesses, conducting millions of pre-employment and tenant background checks each year as part of the hiring and leasing process. NAPBS Member companies are defined as “consumer reporting agencies” pursuant to the Fair Credit Reporting Act (FCRA) and are regulated by both the FTC and CFPB within the United States.

By joining NAPBS, Data Disclosure Services recognizes the mission of the association; to promote ethical business practices, compliance with the FCRA, equal employment opportunity, and state and international consumer protection laws relating to the background screening profession. NAPBS provides educational programs aimed at empowering members to better serve clients and to maintain standards of excellence in the background screening profession.

NAPBS proudly welcomes Data Disclosure Services as its newest member in the screening industry!
